2500 Chamfered Series

Windows & Doors

DECOROC
by deceuninck

www.deceuninck.co.uk

The 2500 series embodies the elements of proven design with aesthetic appeal to complement any home.

Clean and uncluttered, styled to meet the most current trends year after year.

Simple yet effective, the gentle chamfered design looks sharp and stays that way with no nooks or crannies for dirt to collect. Whatever your taste, the look of these windows and doors is easy on the eye without compromising its intelligent design. A sound investment against the harshest elements.

Inspired designs, created by Deceuninck

We take our inspiration from the buildings and environment around us. So our designs are flexible, versatile and are created to suit contemporary styling and period properties alike. What's more, all products undergo rigorous tests to ensure they are of the highest quality and durability.

You can feel confident that your windows and doors will stay beautiful for longer, with very little maintenance.

And, as you'd expect from the UK's leading window and door supplier, all our products are produced to be recyclable.

All kinds of finishes. All kinds of possibilities.

Colours to complement

Wherever the location, whatever the style of your property there's a finish to match.

Our collection includes colours that have been specially chosen to complement any property. A choice of finishes is also available including rosewood or golden oak to give windows a more natural timber look. Then there's Decoroc surface coating to add inspiration to any exterior with a splash of colour.

All kinds of surrounds for all kinds of properties

Because there's no such thing as a standard building, the 2500 Chamfered series is supremely flexible.

Choose from casement or tilt and turn windows, tilt and slide, entrance or French doors.

Our high performance weatherseal demonstrates the kind of intelligent thinking that makes our products market leaders.

Your windows – your style

Choosing a colour is never easy. Deceuninck however makes it easy for you and offers a wide range of colours, created by experts who are guided by simple but strict criteria. The result: Deceuninck colour collection.

Cutting-edge technology. Unrivalled all-weather protection.

Our 2500 Chamfered series demonstrates every aspect of the intelligent thinking that has made Deceuninck products market leading. Our use of cutting-edge technology and the latest materials is constantly expanding. Take our latest high performance weatherseal as an example, incorporating:

- Tightly welded corner seals and low sightlines ensuring a perfect finish
- Tubular construction results in soft closing and an outstanding weather seal memory
- Weatherseal colours that blend perfectly with the window and door finishes
- Large contact surface area generating superb insulation and sound proofing properties

The 2500 Chamfered series windows and doors comply with all current Building Regulation requirements and hold certification to BS 7412, BS 6375 and are manufactured in accordance with BS EN 14351-1.

Protection from the rogue elements too.

It's not just the all-weather properties that make the 2500 Chamfered series an excellent choice. Our window and door products are certified to the latest security standards and are compatible with all standard security hardware. The series can even incorporate glazing units up to 42mm thick which brings the added advantage of greatly increased thermal and acoustic performance.

Your Deceuninck partner

All Deceuninck certified partners are part of a professional dealer network with a focus on craftsmanship and service. This network is your guarantee of correct installation and the highest quality support, further enhancing the value of your Deceuninck product.

Our product groups

At Deceuninck we create innovative and sustainable solutions for Windows, Doors & Conservatories, Outdoor Living and Cladding. Our systems are easy to manufacture, easy to install and easy to maintain.

Windows, Doors & Conservatories

Windows, doors and conservatories

Our window and door profiles provide a perfect balance between energy efficiency and comfortable living. This high-quality PVC-U window and door solution improves the quality of life in many ways. It offers excellent thermal and acoustic insulation properties, high security and an original colour palette. ■

Outdoor Living

Terrace

Deceuninck outdoor solutions are both durable and attractive. The clever combination of materials makes it water-resistant, easy-maintenance, rot-proof splinter and split-free. Thanks to its natural appearance, it blends in beautifully on a garden path, patio, terrace or pond and pool rims. ■

Cladding

Cladding

We offer wall cladding systems in our unique PEFC-certified Twinson material and PVC. Your building's exterior will retain its attractive look for years, without time-consuming painting or staining. We recently released a new product range - a new Twinson wall cladding solution that combines elegance with a minimum of maintenance. ■

At Deceuninck, our commitment towards innovation, ecology and design provides us with a clear focus: building a sustainable home. A home that is more energy-efficient to live in and more attractive to look at. Deceuninck works worldwide with state-of-the-art materials, resulting in low maintenance, top insulating and long lasting products that can be fully recycled at end of life. Moreover, our values help us build a better world for our partners and end users. Deceuninck sets the first step by building a sustainable home.
